## MAP Large Channel Count Switch

The MAP Large Channel Count Switch Cassette is bidirectional and allows the connection of a common port to any number of channels up to 50 . The cassette is available in single or dualswitch configurations.

The MAP switch cassette is based on JDS Uniphase expanded beam and alignment technologies and exhibit low insertion loss and high return loss.

The JDS Uniphase Multiple Application Platform (MAP) Master/Slave chassis can accommodate up to eight MAP switch cassettes (a total of 16 switches per chassis). Custom configurations as well as integration of passive components is also available. Contact your JDS Uniphase sales representative for more details.

For stand-alone applications, the MAP Large Channel Count Switch may be used as a benchtop

## Key Features \& Benefits

Low insertion loss < 0.7 dB
Low polarization dependent loss 0.04 dB
Wide wavelength range
High return loss > 57 dB
Complies to CE requirements plus UL3101-1 and CAN/CSA-C22.2 No. 1010.1

## Applications

DWDM channel testing
Amplifier characterization
Bit error rate testing
Signal routing

1. Excluding connectors. All optical measurements taken after temperature has been stabilized for one hour.
2. Return loss is based on 1 m pigtail (equivalent to bulkhead version)

## Ordering Information

Indicate your requirements by selecting one option from each configuration table. Print the corresponding codes in the available boxes to form your part number.

SAMPLE: MAPS+1K17104L1FP

1CCL1 Single switch, $1 \times \mathrm{CC}^{1}$, latching, bulkheads
1CCN1 Single switch, $1 \times C^{1}$, non-latching, bulkheads
1CCL3 Single switch, $1 \times \mathrm{xC}^{2}$, latching, pigtail 2 m long

1. Number of output channels (01 to 08)

1CCN3 Single switch, $1 \times \mathrm{CC}^{3}$, non-latching, pigtail 2 m long
204L1 Two switches, 1x4, latching, bulkheads
204N1 Two switches, $1 \times 4$, non-latching, bulkheads
2CCL3 Two switches, $1 \times$ CC $^{4}$, latching, pigtail 2 m long $\qquad$
2CCN3 Two switches, $1 \times C^{5}$, non-latching, pigtail 2 m long
2. Number of output channels (01 to 42)
3. Number of output channels ( 01 to 50 )
4. Number of output channels ( 01 to 22)
5. Number of output channels (01 to 25)
